Avanquest PDF Experte 9 Ultimate Free Download Serial Key

by Admin under Office Suites; On April 7, 2014

Avanquest PDF Experte 9 Ultimate, the German version of **Expert PDF 9 Professional**, is a complete, affordable PDF alternative to Adobe Acrobat; offering full compatibility with Microsoft Office 2013, you can quickly and easily create, convert, edit and view 100% industry-standard PDF files. Please be informed that "PDF Experte 9 Ultimate" and "Expert PDF 9 Professional" are exactly the same product but with different names.

Avanquest PDF Experte 9 Ultimate includes a set of modules for working with PDF files and a print driver that generates PDF documents from any program that can print documents. With the print driver, you can create PDF files as easily as if you were printing a document to a regular printer. The print driver also integrates with Microsoft Office programs for you to quickly convert Microsoft Office documents into PDF files. You can merge several documents into a single PDF and send it automatically by email.

On the other hand, Avanquest PDF Experte 9 Ultimate also includes a module for converting PDF to Word to retrieve

the contents of your PDF. The integrated OCR (Optical Character Recognition) technology now makes it possible to recognize text from up to 5 languages from images/documents, making your PDF documents more time efficient to work with.

Avanquest PDF Experte 9 Ultimate also enables you to edit PDF document in a way similar to how you edit DOC files on Microsoft Office Word. All tools are easy to access, like adding and deleting text, images and links. Making annotation on the crucial content enables you to find the important content on a PDF document next time. What's more, you can encrypt and protect your PDF documents with password to prevent from opening, editing, copying or printing.

Expert PDF 8 Professional includes four modules:

- Expert PDF Creator creates PDF files from any open document in any program with a Print command
- Expert PDF Professional provides features for you to read, review, and edit PDF files and create forms as easily as Word documents.
- Expert PDF to Word Converter converts PDF files to rich text format (RTF) files to open in word-processing or text-editing programs.
- Expert PDF Batch Creator converts multiple files (such as graphic files, text files, and web pages) into PDF files.

If you have Microsoft Office 2000 or later installed on your computer, an Expert PDF tab (or menu) is available for quickly converting files from Microsoft Word, Excel, and PowerPoint.

What's new in Version 9

- Optimised PDF engine for graphic and font rendering
- Compatible with Microsoft Office 2013
- Optimise and reduce PDF File size
- Edit PDF/A files
- Standardise PDF tasks with automated actions
- Manipulate PDF documents using Java scripting
- Conforms to PDF 1.7 and upcoming PDF 2.0 ISO Standards

Avanquest PDF Experte 9 Ultimate Free Download Serial Key

Avanquest PDF Experte 9 Ultimate is normally priced at £40.84 per serial number / license key. But as part of the developer's giveaway offer, interested users can now download full version PDF Experte 9 Ultimate with serial key for free. It doesn't say how long this offer will stay free, so if you're interested get it now before it's too late.

Note: Avanquest may blacklist the given license after a certain time (they did so in many Giveaways), so try at your own risk. Blocking the access to the internet for all applications of PDF Experte (reader, printer, batch converter, creator etc.), you may then prevent the blacklisting 😁 .

Follow below simply steps to grab your free copy:

1. Go to this giveaway page (Page in German, use Google Translate if needed), and enter required details.

2. An email with a Confirmation link will be sent to your email.

3. Click on that Confirmation link and you will get your free serial number for Expert PDF 8 Professional. A copy of the free serial number will also be sent to your email for reference.

4, Download Avanquest PDF Experte 9 Ultimate: PDF_Experte_V9_Ultimate_DEU_TRIAL.exe [German Version, but we have a trick to change it into English easily].

Alternatively, here are the English as well as some other language versions for this giveaway license:

English: ExpertPDF_V9_ENG_TRIAL.exe (54.1 MB)
Español: ExpertPDF_V9_ESP_TRIAL.exe (60.9 MB)
Italiano: ExpertPDF_V9_ITA_TRIAL.exe (60.7 MB)
Français: ExpertPDF_V9_FRA_TRIAL.exe (61 MB)

5, Install the program. If you have chosen to download the German installer but still want to use it in English, then close the program and use one of the two methods below.

Method One:

Change this registry. For Windows Xp, go to Start > Run , type Regedit and click Ok; For Windows Vista/7, type Regedit in the Start Menu's Search box to Launch Regedit. Then Navigate to the following paths:

- Windows x32: [HKEY_LOCAL_MACHINE\SOFTWARE\Avanquest\PDF Printer\Driver]
- Windowns x64: [HKEY_LOCAL_MACHINE\SOFTWARE\Wow6432Node\Avanquest\PDF Printer\Driver]

Change (Right Click and Modify) the value of "locale" from "deu" to "enu".
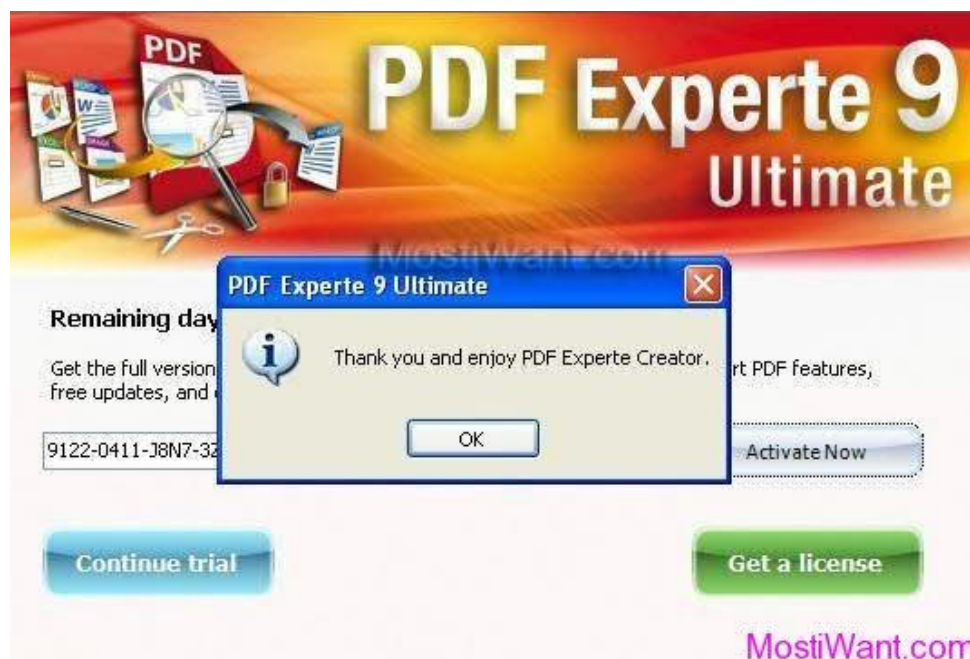

Method Two:

Go to the installation path, the default path is "C:\Program Files\Avanquest\PDF Experte 9 Professional". Search and find all .deu files and delete them.

Done, it should be English Now.

6, Go to "Help" and "Register Full Version", and unlock full version with received serial number. If you received a message that your license is invalid, please double check the details you entered, especially making sure there are no extra spaces at the beginning or the end of the license.

Also please note that if you use Chrome / Gmail, turn off the automatic language translation feature first to copy and paste the serial key. Google Translate will give you an incorrect input and not allow the registration.
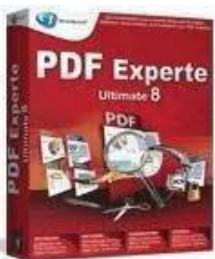

Here is the proof:

Yes, the problem remains-my key does not work. In short, everything looks so. I run the Expert PDF 8 Pro, and on the toolbar click the "Register full version" button. Then im insert my key. This displays the message "Invalid serial specified. (00000016)". Then I click the "About" toolbar button. This displays a banner on which the version is listed as "**TRIAL**". The most interesting thing on this banner: below "**TRIAL**", displayed my registration key! How to understand this? This is normal, or is it a bug?

@kolyadenko, I have sent you a new license, please check if it will work for you. If it still does not work, you can try activating the German version first and then installing English over it choosing repair option.

This one worked like a champ…thank you!

The only confusion was that I clicked on the "free download" button on the page that had the serial number, and it downloaded something called "Driver Genius". Then I went back to your instructions and found the correct download link.

i have already activated that product but now i noticed ((It appears that the serial number [****-****-****-****-****-****] you selected when installing Expert PDF 8 Professional was already used or you have reached the maximum of installation allowed. Therefore, this software cannot run with this serial number. You have been given a period of 3 day(s).)) what the reasons .. please help me ……… waiting for your advice @william

@ rider2007,

The same here. Seems that Avanquest software has closed the promo & blacklisted the given serial. Till now there is no solution for this available.

But an old, stripped down version of the program is still available for free. Please check out our old post: [Expert PDF 7 Converter Free Download With Serial Number](#).

William,

Do NOT ask your members to participate in a "Giveaway" that is not legitimate. The so called serial is blocked and blacklisted by the vendor.

Take care

PERFECT!
ftp://ftp2.avanquest.com/evaluation/ExpertPDF/9/
Find the links that say …x32_x64.exe These are for both 32 and 64 bit OS's. These installers are different; they ask you for the code during installation, so after you activate it, it would never remind you again to activate it (not trial version). You can get the English (Pro) or German (Ultimate) edition; both are the same, and the key works on both. In the application however, there is no update button. That is because when a new version

comes out, just uninstall the current version and get the new version with the same key to update (I don't know if it would work, but it might). This is how you can use the blacklisted key.

Dear Jed, This is really strange. Both the English installer & German installer are still working fine for me. But when registering the serial with the x32_x64.exe file, it tell me that my serial is invalid.
